PROFILE

Web Developer of Fourhub. Builds the team's website with HTML and CSS and makes it work on any phone or computer. Likes finding and fixing problems so everything works well.

WHAT I DO IN THE TEAM

- Builds the website with code
- Makes pages work on phones and computers
- Finds and fixes problems

TEAM PROJECT

FourHub is the web portfolio of Fourhub, built with HTML and CSS in orange and black. My role in the project is **Web Developer**.
